## Natural Nanotech formalises major research project with University of Newcastle

Minotaur Exploration and Andromeda Metals (joint owners of Natural Nanotech Pty Ltd) have signed a \$4 million research partnership with the University of Newcastle's Global Innovative Centre for Advanced Nanomaterials (GICAN).

The partnership will advance research into carbon dioxide capture through the use of halloysite nanotubes as novel adsorbent systems and catalysts for CO<sub>2</sub> capture and conversion processes.

Further details can be found at: [newcastle.edu.au/newsroom/featured/4-million-partnership-carbon](https://newcastle.edu.au/newsroom/featured/4-million-partnership-carbon)
